

BRANDING GUIDELINES

LOGO DESIGN

We can use the logo design in colour, black or white.

Try and ensure the colours selected are high contrast.

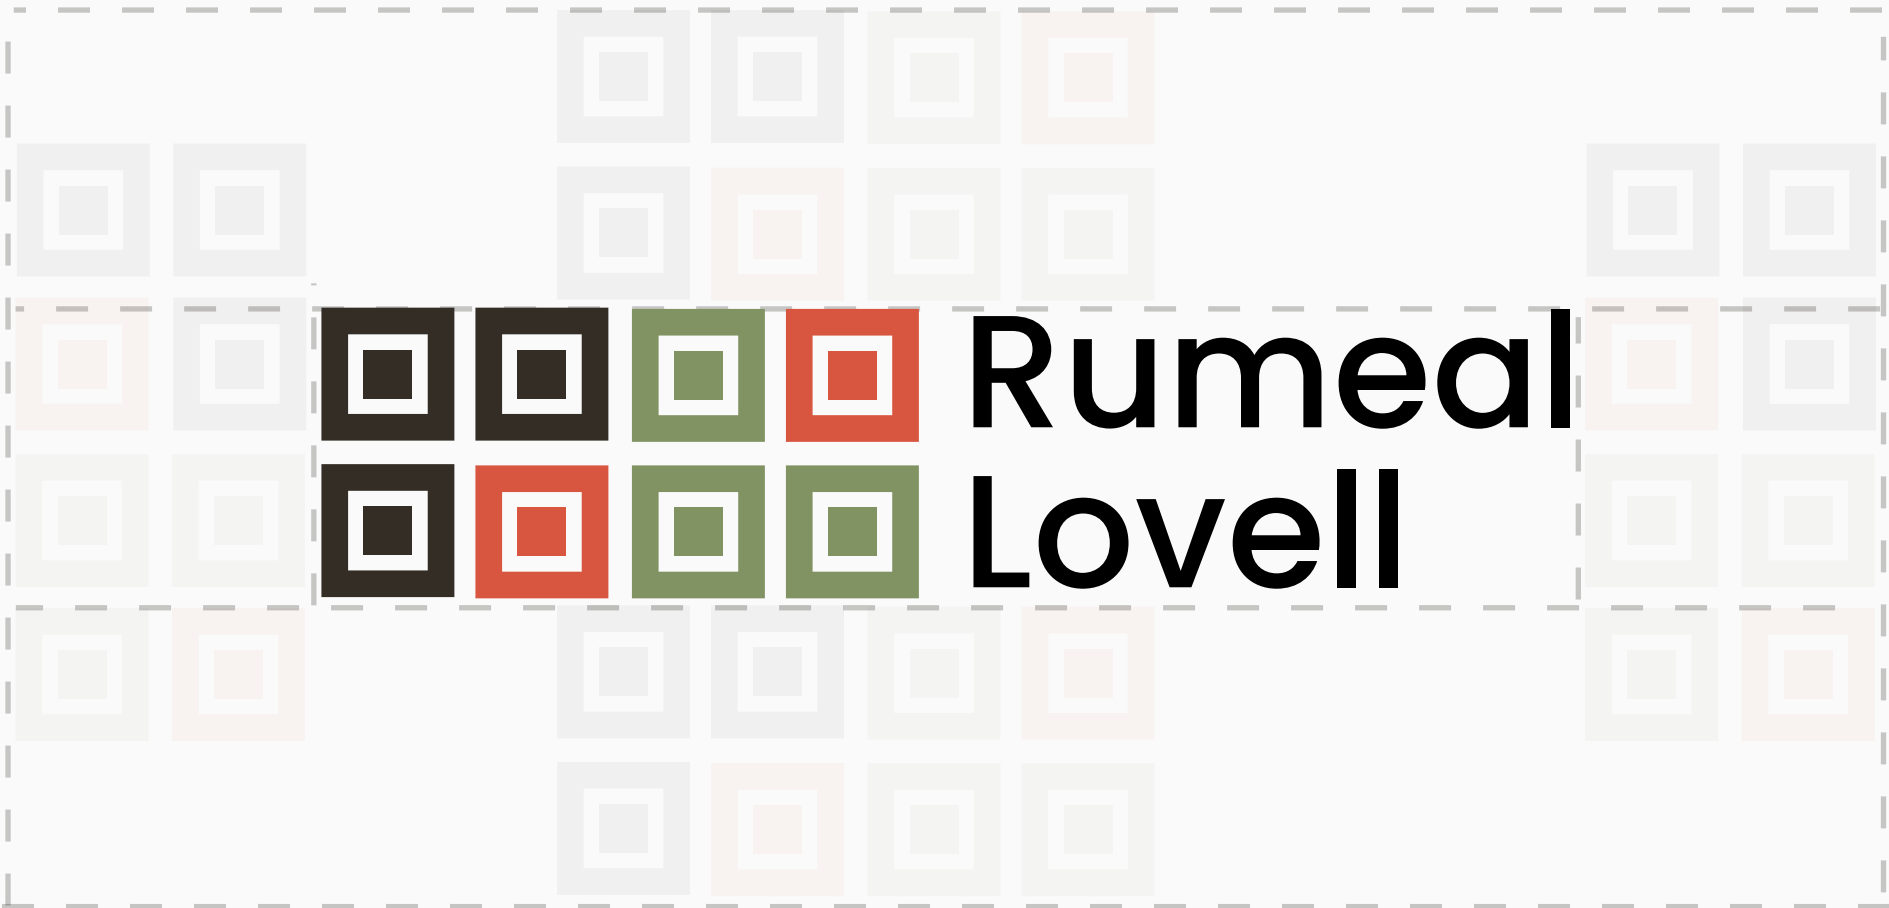

LOGO SPACING / USAGE

There should be plenty of space surrounding the logo at all times.

If no space is left between the logo and other elements, the design will appear crowded and you should always aim for clear and concise legibility.

The logo should also not be stretched.

ICON

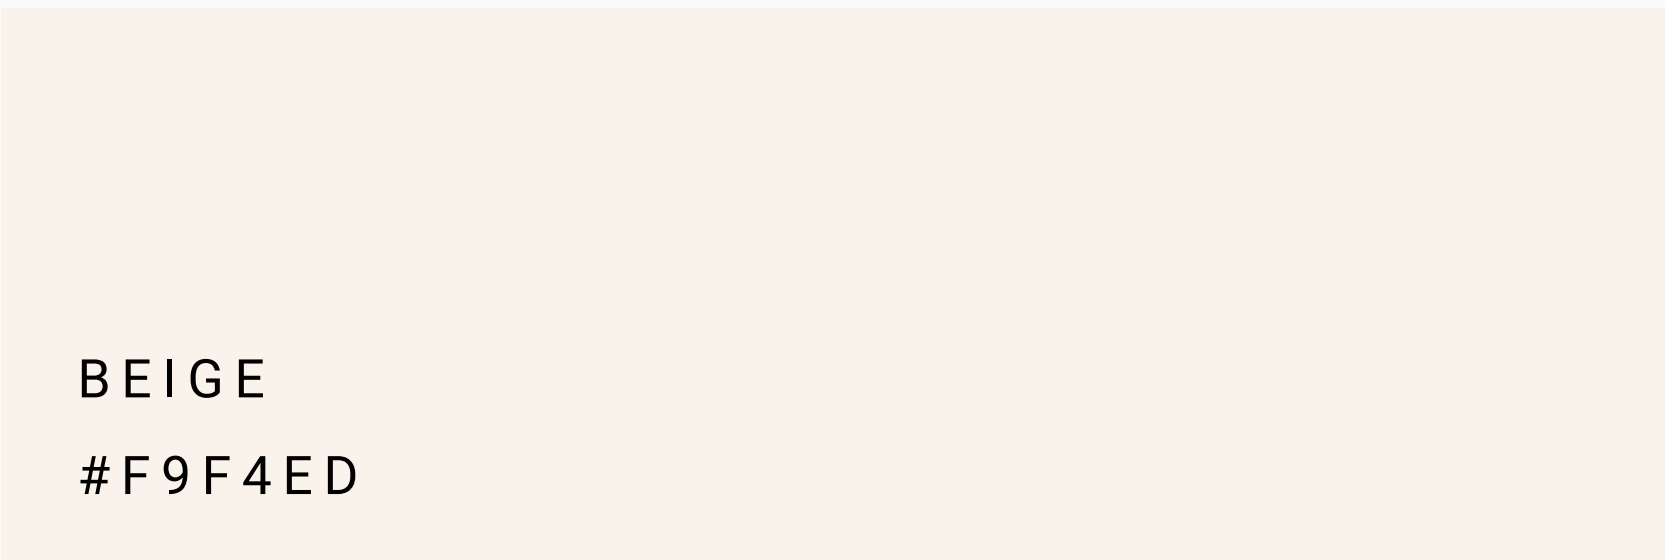

We can use the icon design in colour, black or white.

Try and ensure the colours selected are high contrast.

COLOURS

Try and use the supplied colour scheme wherever possible.

FONT S

The font used in all Rumeal Lovell marketing materials and branding should be “Poppins” and “Poppins Semi-Bold”
